

CORPORATE SALES & MARKETING DECK 2026

FAST SERVICES APP & REAL ESTATE PLOT SALES ACCELERATOR

How Our Digital Engineering Platform Helps Plot Owners, Developers
& Real Estate Agencies Certify, Showcase & Sell Land 3X Faster.

01

Smart App Platform

Instant bookings, GPS engineer dispatch, and live milestone progress tracking in client hands.

02

Real Estate Plot Portal

5 Marla to Commercial Acre plots certified with boundary GIS, soil testing & 3D elevations.

03

Turnkey Value Multiplier

Instant construction cost estimation that converts raw plot inquiries into closed buyer deals.

04

Nationwide Trust Since 2012

PEC-certified engineers, 100+ team strong across Lahore, Karachi, Islamabad & nationwide.

EXECUTIVE CONTACT & PLATFORM ACCESS

Web App: <https://fast-services-ten.vercel.app>

Hotline: +92 300 8443912 | +92 321 8443912

Headquarters: Suite 1-2, 2nd Floor, Al-Haram Center, Lahore, Pakistan

Email: fastsales.services@gmail.com | info@fastservices.com

Why Raw Plots Stay Unsold for Months

Traditional real estate marketing relies on static phone calls and vague promises. Buyers demand verified technical certainty.

1. Unverified Boundary & Encroachment Fear

Buyers hesitate to release down payments due to fear of boundary disputes, incorrect survey markers, or missing society approvals.

Result: 45% of potential buyers drop off during initial negotiation.

2. Hidden Soil & Ground Bearing Ambiguity

Without soil test reports, buyers fear unexpected foundation piling costs, underground water table issues, or structural settling risks.

Result: Buyers demand steep price discounts to offset unknown risks.

3. Inability to Visualize Future Construction

Buyers see only an empty piece of dirt. They cannot envision the luxury bungalow, commercial plaza, or rental apartments that could be built.

Result: Extended decision delays and low emotional engagement.

4. Lack of Clear Turnkey Budget Transparency

Prospective buyers have no accurate estimate of total cost (Land + Foundation + Structure + MEP + Finishing), paralyzing purchase decisions.

Result: Deals stall while buyers seek random external contractor estimates.

THE FAST SERVICES ADVANTAGE: TURN RAW LAND INTO A HIGH-VALUE ASSET

By bundling PEC-certified engineering verification with our live digital tracking app, we transform every plot listing into an irresistible, low-risk, ready-to-build investment.

3X Faster

Deal Closing Velocity

15-20%

Higher Plot Valuation

100% Trust

PEC Certified Reports

Zero Friction

Instant In-App Booking

Target Partners: Real Estate Developers, Housing Societies, Plot Investors & Property Dealers

Whether managing a single 5 Marla corner plot in DHA or developing an entire 200-Acre residential scheme, Fast Engineering Solutions provides the complete technical and marketing infrastructure.

The 6-Step Plot Acceleration Engine

Comprehensive on-ground engineering paired with digital tools that give your plots an unfair market advantage.

01**Zero Boundary Dispute**

Precision GPS Boundary Demarcation

Total-station laser surveying and permanent corner pillar installation. Generates a tamper-proof digital coordinate certificate for buyers.

Full Certificate Included

02**Certified Safe Ground**

Geotechnical Soil & Lab Testing

Core boring, SPT testing, and certified bearing capacity report (SBC). Guarantees foundation safety for multistory homes or commercial plazas.

Full Certificate Included

03**Instant Buyer Desire**

3D Elevation & Layout Concepts

Custom modern architectural 3D elevations tailored to the plot dimensions. Enables buyers to see their dream luxury home before buying the plot.

Full Certificate Included

04**Budget Transparency**

Turnkey Construction Estimator

Itemized material & labor estimates for Grey Structure and Premium Finishing. Eliminates budget anxiety and accelerates purchase sign-offs.

Full Certificate Included

05**Premium Curb Appeal**

Site Preparation & Boundary Walling

Heavy grading, jungle clearing, excavation, and perimeter security walling. Transforms messy wild land into a clean, ready-for-construction plot.

Full Certificate Included

06**100% Digital Visibility**

Live App Dispatch & Milestone Tracking

Client and investor app portal providing real-time photo logs, engineer sign-offs, and downloadable verification dossiers.

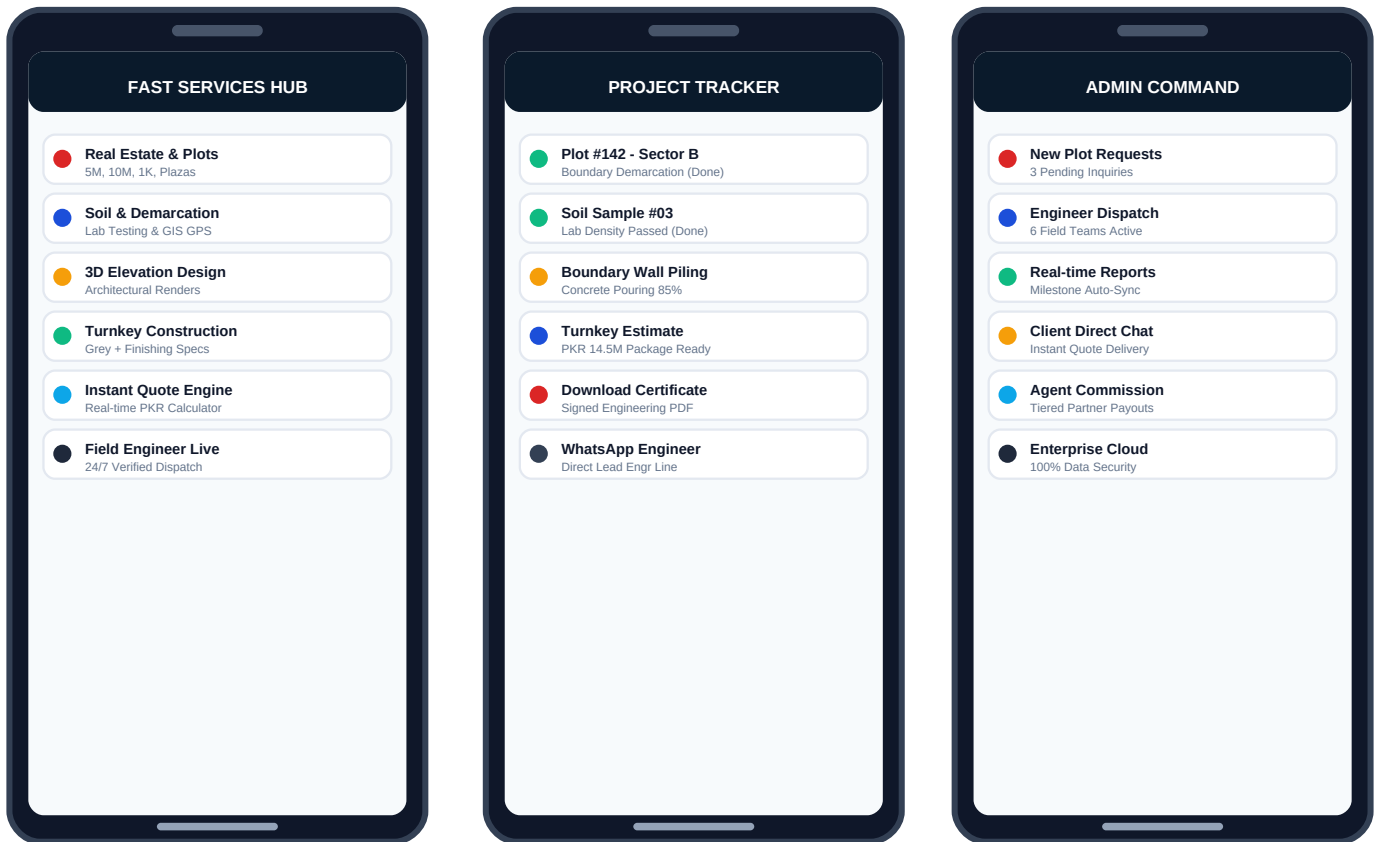

Full Certificate Included

The Fast Services Mobile & Web Application

Designed for high velocity: Customers, plot owners, and real estate partners manage everything from their smartphone.

Instant 60-Second Booking

Select plot size, service type, and location. Instant automated pricing and lead engineer assignment.

Verified Digital Dossiers

One-click downloadable PDF reports for buyers containing soil data, boundary coordinates, and 3D architectural plans.

Live Photo & GPS Progress

Inspect work from anywhere in the world. Ideal for overseas Pakistani investors purchasing and developing plots.

ACCESSIBLE ACROSS ALL DEVICES — NO APP STORE DOWNLOAD REQUIRED

Fast Services runs as a modern Progressive Web App (PWA). Customers simply open the link on iOS, Android, or desktop to install instantly with full offline synchronization.
